With the help of the community, Nomeme Coin intends to develop an ambitious game called "Meme Universe - Pirates Dominion," where players can explore and interact in an immersive virtual environment.

Meme Universe will incorporate play-to-earn mechanics, allowing players to earn Nomeme Coins as they progress in the game.

NFT Integration and Asset Ownership: The game will utilize non-fungible tokens (NFTs) to represent in-game collectible assets, enabling players to have true ownership over their digital items and the opportunity to have in-game power-ups.

5. NFTs Marketplace

NFTs will be an integral part of the adventure in the app game, providing access to rewards, incentives, and new map explorations. Our project stands out for its innovative use of NFTs in the online gaming sector, offering users a unique and engaging experience.

The combination of compelling gameplay, NFT collecting, and completion of exclusive albums with rare NFTs is intended to create emphasis in owning them. Additionally, a dedicated marketplace will be built to sell the collectible NFTs.
